NORGE MINING PLC
("Norge Mining" or the "Company")

Appoints Bente Hagem as Non-Executive Director

Norge Mining plc, the Anglo-Norwegian exploration company developing a world-class mineral resource in southwest Norway, is pleased to announce the appointment of Bente Hagem, the Norwegian businesswoman, as a Non-Executive Director of the Company.

Hagem has broad experience from Nordic and European businesses. Her career includes leading positions at Nortura, Equinor and Statnett (the Norwegian transmission system operator for electricity), where she was executive vice president for 14 years. Bente has been a chair of the board of ENTSO-E (an EU organization for transmission system operators in Brussels), chair of the board of Nord Pool Spot and a member of several other boards.

Bente has also worked for the EU Commission in Brussels, advising on the transition to sustainable energy.

Bente will join Norge Mining's Board of Directors on 1 April 2021.

Oliver Baring, the Chairman of Norge Mining, said: "I am delighted to welcome Bente Hagem to the Board of Norge Mining as a Non-Executive Director. Bente is a highly accomplished businesswoman whose commitment to sustainability and knowledge of the EU will be significant assets for Norge Mining. Bente will join the Company at the beginning of April and we look forward to the perspective that she will bring as we progress our strategy to become a sustainable and strategically important exploration and mining business in Norway."

Bente Hagem added: "Having worked in the energy sector for most of my career I have first-hand experience of the positive impact that a successful industry can bring to Norway. I believe the development of our mineral resources industry presents a major opportunity to create value for the benefit of all stakeholders provided it is done sustainably. Norge Mining's target minerals – vanadium, titanium and phosphate – are particularly important because of their strategic significance to the European Union."

About Norge Mining plc

Norge Mining plc is an Anglo-Norwegian natural resources company focused on mineral exploration in Norway.

The Company owns 46 exploration licences, totalling more than 400 square kilometres in southwest Norway in an area known to contain vanadium, titanium, phosphate and gold. Norge Mining is currently conducting a programme of exploration work, building on earlier studies by the Norway Geological Survey (NGU). The Company's first Mineral Resource Estimate, for the Øygrei area, has confirmed a world-class deposit of the EU Critical Raw Materials vanadium, titanium and phosphate.

Norge Mining's ambition is to become a substantial, sustainable and strategically important exploration and mining business focused on Norway.

The Company was founded in November 2018, is headquartered in the UK and has a 100%-owned Norwegian subsidiary, Norge Mineraler AS.
