NORGE MINING PLC
("Norge Mining" or the "Company")

Appoints Chief Operating Officer at Norge Mineraler AS

Norge Mining plc, the Anglo-Norwegian exploration company developing a world-class mineral resource in southwest Norway, is pleased to announce the appointment of Monika Øksnes as Chief Operating Officer of Norge Mineraler AS, the Company's Norwegian subsidiary.

Monika, who holds a master's degree in geological studies from the University of Bergen, joined Norge Mineraler in June 2020, initially working on an exploration site. In November 2020, Monika became Operations Manager, a role in which she led the opening of Norge Mineraler's office in Egersund.

In her role as Chief Operating Officer, Monika is responsible for Norge Mining's operational activities in Norway, including its exploration programme and community liaison. Monika is part of the team in the Egersund office, which includes Chief Financial Officer Jenny Kvilhaug Tuen along with geologists and other staff.

John Vergopoulos, Norge Mining's Chief Executive Officer, said:

"I am delighted that Monika is now Chief Operating Officer of our Norwegian subsidiary, Norge Mineraler. In addition to being a geologist by training, Monika is outstanding at project management and community liaison. We are very pleased by the strength of the team at Norge Mineraler and I look forward to working with them to deliver our ambition of becoming a sustainable and strategically important exploration and mining business."

About Norge Mining plc

Norge Mining plc is an Anglo-Norwegian natural resources company focused on mineral exploration in Norway.

The Company owns 46 exploration licences, totalling more than 400 square kilometres in southwest Norway in an area known to contain vanadium, titanium, phosphate and gold. Norge Mining is currently conducting a programme of exploration work, building on earlier studies by the Norway

Geological Survey (NGU). The Company's first Mineral Resource Estimates from the Bjerkreim Exploration Project have confirmed world-class deposits of the EU Critical Raw Materials vanadium, titanium and phosphate.

Norge Mining's ambition is to become a substantial, sustainable and strategically important exploration and mining business focused on Norway.

The Company was founded in November 2018, is headquartered in the UK and has a 100%-owned Norwegian subsidiary, Norge Mineraler AS.
