Norge Mining

**NORGE MINING LTD**

("Norge Mining" or the "Company")

**Appointment of Olav Skalmeraas as a Non-Executive Director  
on the Boards of Norge Mining and Norge Mineraler**

**Norge Mining**, the Anglo-Norwegian mineral exploration company with a world-class resource of Critical Raw Materials in southwest Norway, is pleased to announce the appointment of Olav Skalmeraas as a Non-Executive Director on the Boards of Norge Mining and Norge Mineraler AS.

Olav is a highly experienced Norwegian businessman with more than 30 years of international executive experience in the oil and gas and mineral processing industries. Olav has also served as a non-executive at various commercial and research organisations and is currently a senior adviser on emerging fuels at Equinor, the Norwegian energy company.

From 2008 to 2021, Olav held a number of international executive positions at Equinor, including four years as Vice President Carbon Capture Utilization and Storage during which time the Northern Lights decarbonisation project was established. His other roles at Equinor included the position of Country Manager Germany and Vice President Governmental and Regulatory Affairs prior to his moving to Brazil as Vice President Midstream Value.

Before joining Equinor, Olav worked for eight years at Norsk Hydro with roles including Vice President of aluminium activities in South America, a role in which he was responsible for a bauxite mine and an alumina refinery in Brazil.

Olav gained an MSc in marine engineering at the Norwegian University of Science and Technology, Trondheim, and completed postgraduate studies at the Norwegian School of Management, Oslo. His early career was at Norwegian companies including DNV and Saga Petroleum.

In addition to being a senior adviser at Equinor, his current non-executive positions include Chairman of Earth Wind & Power AS and a board member of Power to Educate AS.

**John Vergopoulos, Chief Executive Officer of Norge Mining, said:**

"We are delighted to welcome Olav Skalmeraas as a Non-Executive Director of Norge Mining and of our Norwegian subsidiary Norge Mineraler. Olav has vast international experience of the natural resources industry, including significant knowledge of environmental, social and governance factors. Olav will join the Boards of Norge Mining and Norge Mineraler with immediate effect and we very much look forward to working with him."

### **About Norge Mining**

Norge Mining Ltd is an Anglo-Norwegian natural resources company focused on mineral exploration in Norway.

The Company's Mineral Resource Estimates from the Bjerkreim Exploration Project have confirmed world-class deposits of the EU Critical Raw Materials phosphate and vanadium along with large quantities of titanium. The provenance of these materials is of significant strategic importance for net carbon zero commitments, a key requirement for which is supply chain transparency.

Norge Mining holds 61 exploration licences, totalling more than 520 square kilometres, in southwest Norway through its 100%-owned Norwegian subsidiary, Norge Mineraler AS. The Company's programme of exploration work, building on earlier studies by the Geological Survey of Norway (NGU), is now in the prefeasibility study stage.

Founded in November 2018, the Company is headquartered in the UK and its ambition is to become a substantial, sustainable and strategically important exploration and mining business focused on Critical Raw Materials.
